Description

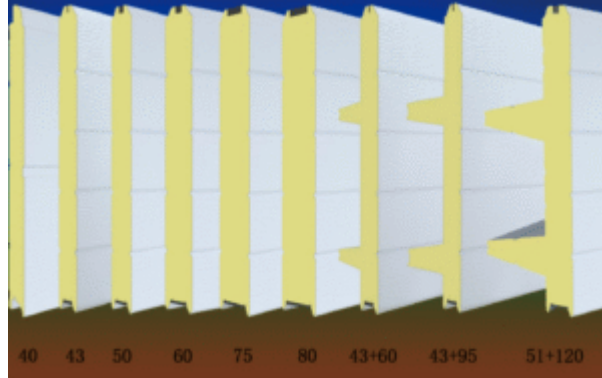

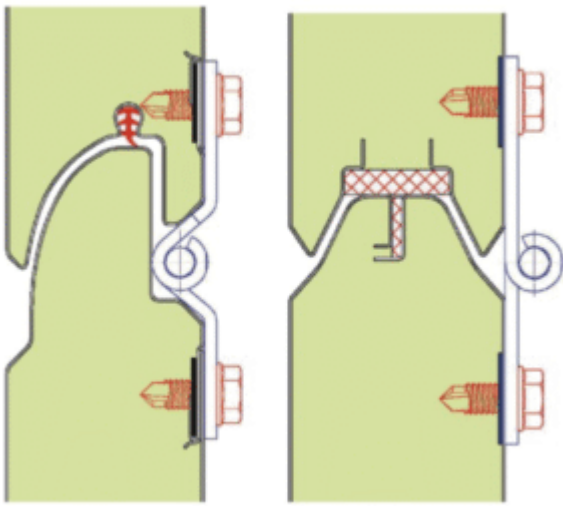

Engineered and designed in Australia, the Motisan Insulated Sectional Door is the ultimate solution for thermal efficiency, durability, and style. Perfect for residential, commercial, and industrial applications, it's built to meet the highest standards.

Key Features

- **Thermal insulated panels ensure superior insulation performance and energy savings.**
- **Galvanized steel with UV-resistant powder coating ensures long-lasting durability.**
- **Precision-engineered for quiet and smooth operation.**
- **Available in stylish colors and view windows to enhance any setting.**
- **Meets EN13241-1, CE standards with finger-safe design, spring break safety device, and other optional safety control devices.**

Panels

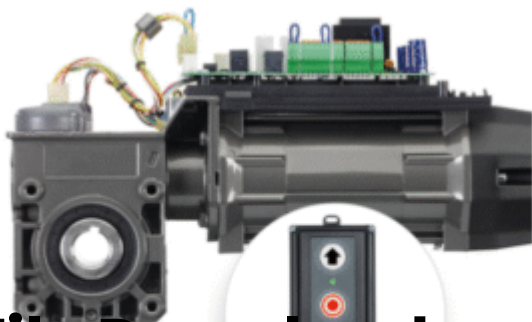

High-density ($\geq 48\text{kg/m}^3$) PU panels with BlueScope pre-coating galvanized steel for long-lasting performance. Backed by a 10-year warranty.

Wide range of panel options, including EN finger-safe, 40-80mm

thermal break, and wind-brace panels. long lasting. 10 years warranty.

Motor

Made in Germany Marantec, smooth and reliable operation, featuring strong static torque to hold the door in emergency situations.
